JUDGES TO BE ELECTED.

The Next Legislature Has Some Plums to Give away.

There seems to be no way to get the average Carolinian to leave off the discussion of politics for a while. No sooner is one election over than they begin to talk of others to come, though they may be months or even a year or two off.

The fact the next legislature has to elect some judges has set all the political tongues to wagging and the chances of the probable candidates are being discussed with a great deal of earnestness.

The legislature at its approaching session will elect a chief justice of the supreme court to succeed Judge McIver, whose term expires. It is probable that he will succeed himself, though there was some intimation during the last senatorial campaign that some "slate" was being prepared to oust him. About this little definite information could be learned—only vague and indefinite rumors. Justice McIver is 75 years old, but is full of vigor and energy and strong mentally.

Among the circuit judges a successor will be elected to Judge Benet of the first circuit. He will stand for reelection and will in all probability be opposed by Mr. T. W. Bacon, one of the most prominent and learned lawyers of Charleston.

In the third circuit no candidate has been named in opposition to Judge Buchanan, who has made an enviable reputation on the bench.

Judge Watts in the fourth circuit seems to have no opposition, judging from the political gossips.

Judge Witherspoon has announced some time ago that he would retire from the bench. Among those prominently spoken of to succeed him are Messrs. Geo. W. Gage of Chester and Mr. D. E. Finley of York. Some of the friends of Mr. J. E. McDonald of Exchange

Fairfield are urging him to make the race, but he is not an avowed candidate as yet.—Columbia Register.

Johnson's Chill and Fever Tonic is a ONE-DAY Cure. It cures the most stubborn case of Fever in 24 Hours.

Man is born and after a while he dies. Between those two events he does many things, and before his demise he is done, also dunned. He who does the doing is sharper, which means that he is sharper than the one he does. When you have to choose be the sharper and you will feel better. Man has no climate; summer is too hot; winter is too cold; in the spring it is growing warm and raining, in the fall it is turning too cold; and blows. Most men are like fall because they blow.

There is another kind of man called woman; which means they can cause man woe and when they say 'wo!' man stops mighty quick. He had better. Nobody knows any thing about this kind of a man.

Becoming Popular.

Norman's Neutralizing Cordial is fast becoming one of the most popular articles in existence. It will soon be the sine quanon in every household. Mothers do not hesitate to give it to their children being so harmless hence its popularity. Norman's Indian Worm, safe, sure and quick in their action, 10 and 25 cents. Sold by Wallace and Johnson.

A poor editor who know how it is himself; says: "It is said that a New York girl kneads bread with her gloves on. That is no news to us. We need bread with our boots on, we need bread with our pants on, and if those subscribers who are so much in arrears don't pay up soon, we will need bread without anything on."

The Chicago man who thinks he can make gold is deluded, of course, because gold is an elemental substance. But if he could make it he would be very foolish to make his secret known. If it were possible to manufacture gold and the world knew how, gold would lose its value. The alchemist's proper policy would be to make enough gold sold at present prices to make him very rich and then burn his formula.—Anderson Intelligencer.

Thomas & Bradham will be found at their old stand in Kingstree from Oct. 1st with a nice lot of horses, ready to fill the wants of their friends and patrons. We will also be ready to collect accounts for stock sold last season. We expect to do some business here and will sell at a price to insure satisfaction. Thanking our friends for past favors and assuring them that we can do better by them than ever before, we solicit and early call.

THOMAS & BRADHAM.

The Very Best Evidence.

Dr. A. B. Patterson, Barnwell, S. C. says: "I guarantee every bottle of Norman's Neutralizing Cordial I sell, because I am satisfied it is a reliable medicine. Experience with it has proven this." Mr. J. W. Harvey, Long Creek, S. C. says: "I have been selling Norman's Neutralizing Cordial the past three years. It gives universal satisfaction, and its sales are increasing." Norman's Indian Worm Pellets, 10 and 25 cents. Sold by Wallace and Johnson.

The earlier edition of Webster's Dictionary contained a verb "to jew," and defined it "to cheat," "to play with," etc. At the request of a number of influential Israelites the word was eliminated from the book. As a matter of fact, however, the word had no connection with or reference to the followers of the Mosaic faith. It was derived from the French "jeu" and "jouir," which means "to play with," "to cheat," etc, but its orthography has become corrupted to "jew." It did not appear in subsequent editions of the work.—Hebrew Standard.

No Cure, No Pay.

That is the way all druggists sell Grove's Tasteless Chill, Tonic for Chills and Malaria. It is simply Iron and Quinine in a tasteless form. Children love it. Adults prefer it to bitter, nauseating Tonics. Price, 50c.

The Bible Institute Colportage Association, D. L. Moody, President, is in need of more colporters. Earnest young people desiring to give the whole or a portion of their time to Christian work, with remuneration, should address A. P. Fitt, Supt. Box X, 250 La Salle Ave., Chicago, for particulars.
